

From Yoon and Aquadro 1994

Figure 1. Range map of *D. athabasca* showing distributions of Western-northern (WN), Eastern A (A), and Eastern B (B). Note areas of sympatry—Minnesota and Maine for Western-northern and Eastern A, and most of the range of B for Eastern A and B (data from Johnson 1985; Miller 1958, Miller and Westphal 1967). Collecting localities (indicated by dots) are labeled as in Table 2.
